<td></td>
</tr>
<tr>
<td>5.1</td>
<td>Dealt with as an individual matter at item 7.4</td>
<td></td>
</tr>
<tr>
<td>5.2</td>
<td>Feedback on Accreditation committee</td>
<td>DS</td>
</tr>
<tr>
<td></td>
<td>DS advised that this matter can now be closed. There were only minor</td>
<td></td>
</tr>
<tr>
<td></td>
<td>issues with SIGN 50 and these have all now been resolved and SIGN</td>
<td></td>
</tr>
<tr>
<td></td>
<td>received reaccreditation.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>JK added that commentary, feedback and changes are now a bigger focus</td>
<td></td>
</tr>
<tr>
<td></td>
<td>within SIGN and that it is more proactive on whether guidelines need</td>
<td></td>
</tr>
<tr>
<td></td>
<td>no changes, a refresh or should be put out for scoping etc. SIGN 50</td>
<td></td>
</tr>
<tr>
<td></td>
<td>has been updated to reflect this.</td>
<td></td>
</tr>
<tr>
<td>5.3</td>
<td>Managing declaration of interests</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In addition to the previous discussion at item 2. on the agenda, JK</td>
<td></td>
</tr>
<tr>
<td></td>
<td>advised that no decision had yet been made on whether, in the case</td>
<td></td>
</tr>
<tr>
<td></td>
<td>of monetary declarations, the exact amount needs to be declared, or</td>
<td></td>
</tr>
<tr>
<td></td>
<td>if providing information</td>
<td></td>
</tr>
</tbody>
</table>
the value falls within a specific range is sufficient. SIGN SMT are looking at the current practice within other organisations.

### 5.4 NICE horizon scan

RJ had to leave the meeting on an urgent matter, so was unable to advise on this item.

SD informed Council that a spreadsheet is sent monthly, by SIGN, providing information on the work being done by SIGN and NICE. She asked if it was possible for similar information to be provided by all of HIS. ST said that, initially, the Evidence directorate could do this.

### 5.5 Information pack for new recruits

There is a list of documents held on the SIGN Council website. However, the website is password protected and can only be viewed by Members of SIGN Council and their Deputies. ST agreed that information could be circulated to as broad an audience as possible.

### 6. SIGN COUNCIL BUSINESS

#### 6.1 Membership (including committees)

JK advised that some committees are still short of the numbers required to do their work properly, for example, GPAG and Strategy. The commitment required to be on these committees is to attend 3 meetings a year, with a minimal additional workload, as decisions are made through discussions at the meetings. Interested SIGN Council Members and Deputies should contact SIGN.

#### 6.2 Declaration of interests (DoI)

All discussion on this item was completed at agenda items 2. and 5.3.

#### 6.3 Events and awareness raising

JK reminded members to advise KK of any events at which SIGN can have a stand or display materials, with minimal cost. Members were encouraged to maximise any opportunity at relevant meetings to highlight appropriate guidelines, by presenting a poster or giving a verbal presentation.

#### 6.4 Terms of Reference

Council agreed changes at the February meeting. This item can be removed from the agenda.

#### 6.5 What should SIGN Council members bring to SIGN?

Council discussed what they thought Members brought to SIGN Council and what they took away. Comments included:

- diversity of opinion and ways of working
- an opportunity to represent the view of their college
- to get involved in the work SIGN does and feedback to colleagues
- raise awareness within SIGN of issues and changes happening in their area
- can seek guidance from other Council members
- remind people that patients are the focus of the work that SIGN does
- promote the patient versions of the guideline as a tool to engage in a 2-way conversation
- to be given the opportunity to bring both a personal view and organisational view,
- the benefit of using a number of opinions to reach clarification on issues
<table>
<thead>
<tr>
<th>7.</th>
<th><strong>STRATEGIC BUSINESS</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>7.1</td>
<td>SIGN Council action plan</td>
</tr>
</tbody>
</table>

JK highlighted that this is the most useful paper to read prior to attending SIGN Council, as it outlines the progress of work within SIGN. Any comments or queries should be fed back to RJ.

| 7.2 | Guidelines International Network (G-I-N) conference 2018 |

The G-I-N conference in Manchester in 2018 and SIGN and NICE have developed a proposal to co-host the event. There will be no financial responsibility for SIGN, or profit making. The event will be hosted as an equal partnership. 2018 is the year of SIGN’s 25th anniversary.

Suggestions offered for a potential theme were:
- education, and where guidelines fit into education
- realistic medicine – facing up to choice

If letters of support are received from various colleges, it means the conference will be opened up to a broader range of attendees.

Templates of letters of support will be available to Members who would like them.

| 7.3 | Guidelines in the era of realistic medicine |

This paper represents the personal opinion of JK and is backed up by RJ. It is currently at peer review.

Points raised in discussion were the difficulties in producing a guideline that has a range of difference options for discussion between GP and patient. It was helpful to know in identifying the volumes of work done by limited resources, in a positive way.

An adjustment was suggested for page 4, that the paper should read “…variation cannot…”

The point was raised that there could be an opportunity for GMC and other groups to broaden the variety of people involved in guideline development groups.

| 7.4 | Dissemination in general practice |

DSt gave a presentation on dissemination in general practice.

Comments from Council recognised that these challenges also apply to other clinical groups. SIGN need to start making better use of social media to help with disseminating information, with more frequent use of Twitter and a SIGN
Facebook page. SIGN have already started making improvements by re-designing the SIGN website and using Guidelines in Progress.

### 8. UPDATE FROM HEALTHCARE IMPROVEMENT SCOTLAND (HIS)

ST handed out information on the new *iHub* (Information Hub) and a leaflet on the principles of National Care Standards.

The circulated Primary Care Strategy has been changed dramatically and a streamlined strategy will be available at a later date. ST will produce a written report following Council.

### 9. SIGN EXECUTIVE BUSINESS

#### 9.1 SIGN 145 Assessment, diagnosis and interventions for autism spectrum disorder (ASD)

JK thanked Dr Iain McClure, Consultant Child and Adolescent Psychiatrist, Royal Hospital for Sick Children, Edinburgh, for attending to present on the new SIGN guideline on ASD guideline.

Council Members found it beneficial to learn of the challenges in producing a guideline with limited evidence and the possibility of increased publicity due to differing opinions on the treatment of ASD. In future, there will be more presentations of this type.

#### 9.2 Programme Lead report

In the absence of RJ, Members were asked for any comments to be made on *sign-06/16-9.2*. None were received.

#### 9.3 Guideline development programme

In the absence of RJ, Members were asked for any comments to be made on *sign-06/16-9.3*. None were received.

#### 9.4 Patient Involvement update

Karen Graham continues to be extremely busy with the patient versions of guidelines and option are being looked into to find short- and long-term solutions to provide help.

As previously minuted, Helen Tyrrell has resigned from SIGN Council and her replacement as Lay Representative is Kenneth McLean. JK to write a letter of thanks to Helen for all the work she has done as a SIGN Council Member.

#### 9.5 SIGN website update

In the absence of the RJ, DS provided a quick overview of the new SIGN website. This should be ready for launch by the next SIGN Council in September.

### 10. GUIDELINE PROGRAMME ADVISORY GROUP (GPAG)

#### 10.1 GPAG update

In the absence of the Chair, and RJ, JK reported that additional meetings between SIGN and proposers, in the initial stages, have helped in identifying what the proposers see as a realistic response to their proposal. Face-to-face meetings have saved approximately four months working time.

#### 10.2 Future programme
When a guideline in 10 years old, the decision was reached that it will be withdrawn from the website and the proposer would be approached to reach an agreement on how to proceed.

11. STRATEGY
11.1 Strategy group update

JB briefed Members on the discussions that had taken place at the Strategy group meeting on risk assessment models and “choosing wisely” and clinicians need to be mindful of over treatment. There is a shift towards the patient being more involved in the decision-making for their treatment.

Statement of Intent

The revised statement of intent was approved. This item can be removed from the agenda.

12. METHODOLOGY
12.1 Methodology update

DS provided a methodology update highlighting in particular that the BTS accreditation. He attended the first meeting of GRADE, which involved useful discussion, although the tools are not for use on a daily basis. Two papers were published on DECIDE.

13. HEALTHCARE PROFESSIONALS IN TRAINING (HCPiT) GROUP
13.1 Healthcare professionals in Training Group update

ST advised that this group will be reconvened as an early career group across HIS, with Evidence leading the way. She will report on progress at the next meeting.

14. ANY OTHER BUSINESS

There was no further business.

15. DATES OF NEXT MEETINGS

10am for 10.30 to 1pm followed by a light lunch. 
Wednesday 21 September 2016, Meeting rooms 6a and 6b, Delta House, Glasgow 10am – 1pm
